XI

NEONATOLOGY CONFERENCE IN KOŠICE

WITH INTERNATIONAL PARTICIPATION

www.neoke.sk
www.novorodenec.sk
www.neonatology.sk

PRESIDENTS OF THE CONFERENCE

STEVEN M. DONN, MD, FAAP, FAARC (Neonatal-Perinatal Medicine, MI, USA)
PETER KRCHO, MD. PHD. (LF UPJŠ, SR)

**Kunsthalle
Rumanova 1
Košice**

JUNE 4, DAY ONE

08.45 - 09.00 Peter Krcho

**Welcome and Introduction
Steven Donn**

09.00 - 9.30 Gianluca Lista

Sustained inflation: is it still in fashion?

09.30 - 10.00 Samir Gupta

Evidence based management of Patent Ductus Arteriosus in ELBW infants

10.00 - 10.30 Gianluca Lista

How to allow an optimal lung recruitment of the preterm infant?

10.30 - 10.45 Panel discussion

10.45 - 11.00 Coffee

11.00 - 11.30 Samir Gupta

Physiology based management of pulmonary hypertension

11.30 - 12.00 Steven Donn

PAH and BPD: to treat or not?

12.00 - 12.30 Istvan Seri

Evidence-based approach to the management of neonatal circulatory failure in the third decade of the 21st century

12.30 - 13.00 Panel discussion

13.00 - 13.45 Lunch

13.45 - 14.15 Gianluca Lista

Lung protective ventilation of the preterm lung: what do we know?

14.15 - 14.45 Daniele De Luca

Ultrasound Guided Surfactant Administration

14.45 - 15.15 Steven Donn

Ventilatory management of BPD

15.15 - 15.45 Panel discussion

15.45 - 16.00 Coffee

16.00 - 16.30 Lee Collier

Neonatal Transport

16.30 - 17.00 Peter Krcho

Individualised management of the transition in LBW and late preterm newborns

17.00 - 17.30 Jiří Dušek

Nutritional support systems in newborns under 32 GW system optimization

17.30 - 18.00 Panel discussion

JUNE 5, DAY TWO

08.30 - 09.15 Fabien Labombarda

Generalized arterial calcification of infancy in a neonate with severe heart failure

09.15 - 09.45 Samir Gupta

How to set up a functional Echo training programme on the NICU

09.45 - 10.15 Steven Donn

Is Hypothermic Neuroprotection Really a Cool Idea?

10.15 - 10.30 Panel discussion

10.30 - 10.50 Coffee

10.50 - 11.20 Lee Collier

Stabilisation before transport

11.20 - 11.50 Peter Krcho

Multiple vascular malformation in a newborn

11.50 - 12.20 Istvan Seri

The haemodynamic antecedents of P/IVH in the extremely preterm neonate

12.20 - 12.30 Panel discussion

12.30 - 13.30 Lunch

13.30 - 14.00 Istvan Seri

Comprehensive cardiorespiratory and neuroprotective monitoring and predictive mathematical modelling in critically ill neonates: The road to the use of machine learning and AI in neonatology

14.30 - 15.00 Peter Krcho

Evaluation of the bedside bilirubin concentration from capillary blood - advantages

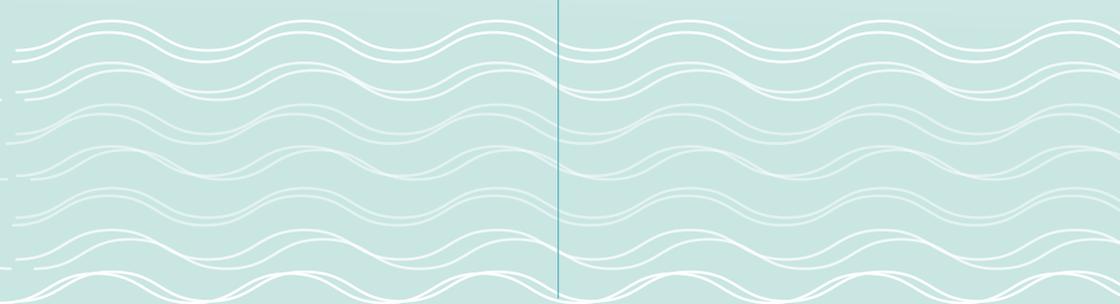

15.00 - 15.30 Jiří Dušek

Target fortification in newborns below 32 GW. Why and how?

15:30 - 16:10 Peter Krcho

Fortification of mother milk

16.10 - 16.40 Panel discussion
