Speaker

Roger K. Khouri, MD, FACS

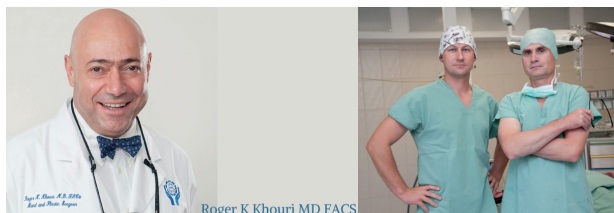

Dear colleagues,

We would like to invite you to the III. Castle Beauty Conference, which has already become a traditional course on aesthetic plastic surgery and which will be held on Tuesday, **28. August 2018** at the RRC Clinic Hluboká nad Vltavou, Sokolská 1339. This year's guest is doctor **Roger K. Khouri** from Florida, a world leader in the area of breast lipomodelling in aesthetic as well as reconstructive surgery.

This year's III. Castle Beauty Conference is a continuation of two very successful years organized with prof. Nahas (Brazil) and prof. Hunstad (USA). This enables us to fulfil the main philosophy and mission of this course, facilitate close meeting with world-class specialists in plastic surgery and gain specific knowledge and learn about surgery techniques that we can utilize in our practice.

We are looking forward to your interest and participation.

Vladimír Mařík & Pavel Kurial
and the Plastic Surgery Team in České Budějovice
